Powering A Connected World With Global-Local Expertise

Global Network Capability

Beside the in-depth network in China, CITIC Telecom CPC also has a Global high-quality network that allows companies to connect their ICT infrastructure (ie, in China and in CIS) legally into their global network. Part of the global network is a direct terrestrial connection across regions, such as between Europe and the Greater China.

CITIC Telecom CPC Advantage

Global Footprint, Local Support, Integrated ICT Solutions

CITIC Telecom CPC is an expert to deliver ICT services across the globe, including Europe & CIS, US, Africa, APAC and the Greater China.

To service our customer locally, we have NOCs and CSCs located in Europe and Asia, ensuring smooth support in the same time zone. These operational centres can be the single point of contact for all ICT services delivered globally, including the underlay connectivity, both private and public (internet).

Local Professional team always helps to overcome the local billing, legal, language, and cultural barrier.
